

## **ACADEMIC PROGRAMS**

Interactive College of Technology operates two separate institutions (see approval codes).

Students seeking a student visa for entry into diploma and Associate of Science Degree programs must provide documentation of basic English proficiency. Upon entry, a formal assessment will be completed, and if additional English training is needed, it will be provided as a part of the academic program.

Candidates seeking admission into the Stand-Alone English as a Second Language program must document pre-existing skills, knowledge, or expertise in order to qualify for admission.
